AI APPLICATION ENGINEER

I am an AI Application Engineer with expertise in **Agent orchestration, RAG systems, and Python backend development**. I have experience with **LangGraph, AutoGen, FastAPI, and vLLM**, and a strong foundation in **multi-tenant architecture** and **LLM-powered application design**.

TECHNICAL SKILLS

Languages	: Python, JavaScript, Java, C/C++, SQL
Agent & LLM	: LangGraph, AutoGen, MCP, ReAct, LangChain, vLLM
Backend	: FastAPI, Flask, Redis, Celery, gRPC
Data & Infra	: MySQL, PostgreSQL, Milvus, Neo4j, Docker, Kubernetes
Testing	: JUnit, EvoSuite, PyTest, Selenium, Postman, Jira

EXPERIENCE

Agent Engine Developer <i>Ping An Technology (Shenzhen) Co., Ltd.</i>	Oct 2024 – Apr 2025 <i>Shanghai, China</i>
- Built PingAn Agent Platform Engine with Python, FastAPI, LangGraph, MCP, Redis, gRPC - Optimized engine performance by 72% via caching, async pipelines, and resource scheduling - Designed multi-tenant isolation with pluggable KB/model/tool integration and per-user provisioning - Resolved 900+ user issues, aggregated solutions into a knowledge base, and built an agent on top to automate user problem handling via RAG and auto-routing	
Research Assistant <i>Australian National University</i>	Nov 2023 – Sep 2024 <i>Canberra, ACT, Australia</i>
- Built dynamic tracing and static-dynamic diff pipelines, automating execution data collection and call graph accuracy evaluation across open-source projects - Identified key sources of static analysis imprecision (reflection, dynamic dispatch) through runtime validation, improving call graph reliability	
System Tester Intern <i>Xinguodu Payment Technology Co., Ltd.</i>	Jul 2022 – Aug 2022 <i>Shenzhen, Guangdong, China</i>
- Developed automated test scripts using Python + Selenium/PyTest, reducing manual testing time by 40% - Built CI-integrated test pipelines to validate payment transaction flows across multiple terminal models - Performed regression testing for firmware updates, ensuring backward compatibility of payment protocols	

EDUCATION

Southern University of Science and Technology <i>Master of Science in Management Science and Engineering</i>	Shenzhen, Guangdong, China Sep 2026 – Present
Southern University of Science and Technology <i>Bachelor of Engineering in Computer Science (Honours)</i>	Shenzhen, Guangdong, China Sep 2019 – Jul 2023
